Diablo 3 crusader build guide

Hey, guys, thank you for checking out our Crusaders alignment guide! Crusaders have a bad reputation for slow leveling – but that's not the case! The Crusaders have a very good leveling speed as long as you let go of the shield! I RECOMMEND THAT YOU OPEN OUR D3 alignment process (all categories). It answers the usual leveling questions. Leoric? Grinding? There's a lot of more information. Crusader Alignment – Fast Navigation: FULL Leveling Build | Summary/Reminders | Leoric Crown? | Comments | Fresh level 70! !!! Challenge Rift material !!! As mentioned in our general alignment guide for all categories, you should make a Challenge Rep and wisely use the materials that come out of it. TLDR: Challenge Rift -> Attempt Deaths Breath update and Blood Shard play for good legendary. For the leveling Sader, the chances are quite small... Death breathing update 1H Flails. I hope you get something good (Gyrfalcons, Johannas, Darklight). The odds aren't that hot as 4/7 1H Flails are pretty rubbish. Blood Shards play shields level at 1-15. I hope you get Johanna's guard. It's the only possible legendary protection at this level. Alternative strategy: Blood Shards for Heart of Iron (Chest L15). It is 50% easier to get compared to Johanna's curves with shrapnel, but is much less OP... Crusader Leveling: FULL BUILD per Level Place your level in the box in the top right corner – or hit back/next can be found in the bottom right corner! If you don't have a great legendary shield... LET GO OF THE SHIELD! Use a 2H weapon without heavenly power! It's a huge help to DPS! But if you have a good 1H gun, you might as well use Fervor. See more notes about our D3 alignment process (all categories). Summary: It's worth !! You must be at least L16 (to be safe) You must beat him in campaign mode !! You probably didn't beat him before, this is still worth doing, but you're going to have to wait until you're L20. Just make sure that when you make this detour, you're either A) ready to deal with it as quickly as possible, or B) Just find a change of pace in how it is when you level it. Make it a mini-game! Go to Skeleton King as fast as you can! Steed Charge and Falling Sword while equipping 1H and Fervor (Passive) should reduce travel time a lot. I don't want to rush to Leoric at the season opener. It is painfully slow without mobility and muscles. But unfortunately this is just my suggestion and observation... Crusader smooths out notes by playing the structure of Brainless AoE & Elite trashing. While many builders rely on synergies and cute small interactions, this Crusader alignment build-up is based on raw BRUTE FORCE power. It works, too. Smite - Shatter is a completely brainless, imba AoE generator. It also heals you together With the reason. It does impressive damage, while the shield is less in the 2-Hander. The fist of the taivas is the same. When you get Fissure, the damage will be crazy. This and Smite handle most generic encounters – but kind of sucking vs. elite... Falling Sword, that's where this came in. The rest of the series makes it quite a lot easier for the elite to burst down. Judging is the same thing. Steed Charge is necessary to find better battles for you (or by hunting more elites to kill). While the damage to one item isn't exactly bad – killing one guy and a guy takes the same time (So of course you want a piece...). Don't underestimate the DOT! Valor-Unstoppable Power laws are great – and you should pop it whenever you can get it. More specifically, when you're with a fist (of the taivas). Followers – Hire them! Templar is not only the best utility successor (Asparagus and resource gain), but the Crusaders pick up strength gear that increases Templar's DPS. Take all the skills on the left, their best support choices. From time to time, give him your trash 1 hand, rings, amulet and shield. Made of yellow gunship 2H Axe (yellow) blacked in the city. Check over a few levels to see if you have anything new. It should also have power. Although any 2-hour weapon is ok, the axe is recommended for its large weapons damage. Level 61, don't delay and do new things. The statistical differences are huge compared to previous ones. Needless to say, this should be the first thing you do when you're also 70. Crusader: Jewels while smoothing red gems (Ruby)... Good red jewels. Best for Helm (+EXP%!!!!), flat damage and because crusaders use force as a primary statistic, including for red gems everywhere! DON'T SAVE THEM, connect them often! Fresh 70 Crusader, what is it? Gratings at maximum level Crusader! The rest of the game begins now!
